

STTRs Direct specialise solely in Speech to Text communication (using either Palantype or Stenograph) for Deaf, deafened and Hard of Hearing people that need communication support of this type in order to participate fully in work settings, educational settings etc.

It is owned, run and managed by experienced Speech to Text Reporters who have worked at all levels of assignment including House of Lords, Government Departments, various Deaf and deafened organisations, other charities eg. RNID, Hearing Concern, UKCoD, STAGETEXT, major conferences, and whose collaborative experience spans over 40 years. Their profiles are available on request.

Another distinct feature of **STTRs Direct** is that we will always make you aware of the Reporter's standards and qualifications upon making the booking. An unqualified Reporter will **never** be used. A profile of every STTR we provide is held by us and can be supplied upon request.

Our rates are exceptionally favourable: we take into account charity status.

Please call us on 01707 642307 or email us at enquiries@sttrsdirect.co.uk to book an assignment or for more information on our service. Alternatively, visit our website at www.sttrsdirect.co.uk

We look forward to offering you the best Speech to Text communication so you can get on with your day in the knowledge that you are receiving a truly excellent service.
